# **INTRODUCTION**

E-filing is the short form of electronic filing of income taxes. E-filing is when you electronically file your income tax returns online for a particular year. This means you no longer need to visit the nearest Income Tax Department's office to file your returns physically.

## **ADVANTAGES OF E-FILING**

- ✤ SAVING OF TIME
- ✤ NO DUPLICATION
- ERRORS AVOIDING
- ✤ GUARANTEED UPDATES
- PEACE OF MIND

## **DISADVANTAGES OF E-FILING**

- \* You need to add statements or other attachments. (e.g., PDF attachments)
- \* You are filing decedent returns.
- \* The "additional information" section on your form does not contain enough space.
- \* You file before e-Filing begins (January 28) or after e-Filing ends (October 20).

## **Salient features of Income Tax New e-filing Portal**

- The new e-filing portal will issue detailed frequently asked questions (FAQ), chat box, video, live agent to help the taxpayers understand the features of the new portal.
- The portal also comes with a reminder about the necessary compliance which will prompt the taxpayers to complete all their pending filings.

- Taxpayers will now be able to pre-fill their salary income, interest, and dividends and all the capital gains will be reflected after TDS and SFT deductions.
- new mobile application will also be launched subsequently which will help the taxpayers to understand various features of the new portal.
- The new portal will also have a new online tax payment system with various options like net banking, credit card, UPI, NEFT, and RTGS for easy payment of taxes.
